

Agile Documentation Journey

INSTRUCTIONS

By table: Draw a collective timeline of the various points in your processes where documentation and artifacts are currently utilized. Use a different color sticky note for each person at your table.

Annotate each document, roughly as specified in the example card below. In essence, who delivers and consumes the artifact, and how well does it work for everyone?

EXAMPLE

TITLE Technical Requirements Specification	
PURPOSE Communicate detailed customer requirements in a manner suitable for direct interpretation and implementation by a developer, with minimal rework.	
SUPPLIER Business Analyst	CUSTOMER Developer
EFFECTIVENESS RATING Effective at Purpose? Valued by both parties? Easy to create & maintain? 	

EFFECTIVENESS RATING LEGEND

EFFECTIVE & EFFICIENT.

ADEQUATE, BUT THERE'S LIKELY A BETTER WAY.

MOSTLY SEEN AS A WASTE OF TIME.
